

Flex Databases Modules Overview

Flex Databases is a company providing e-solutions for clinical trials. Software provided by Flex Databases helps making the processes of conducting clinical trials and managing pharma, biotech and CRO seamless and controlled. It means more effective data processing, less time required for managing data, avoiding mistakes in reports generation, endless reporting capabilities and KPI tracking.

Flex Databases platform is easily customizable, any client's requirement may be configured, it distinguishes us from many other companies. The range of modules offered by Flex Databases is very wide and covers all processes within R&D company. By choosing Flex Databases our clients win a solid, reliable IT vendor with fast feedback, flexible approach and constant client support with a focus on quality.

We offer a unique platform which allows combining traditional features related to management of clinical trials (CTMS, EDC&IWRS) with the functionality for running internal pharma companies and CRO processes as well as a capability to manage financial data, invoicing and expenses. All modules developed by Flex Databases are validated and 21 CFR Part 11 compliant.

CRA Activity Management

Effective Management of all CRA activities. Let the system manage timelines and support you in your daily performance. Schedule monitor visits, assess CRA performance based on various KPIs and generate any type of visit reports (PSV, SIV, IMV, COV) within CRA Activity Management Module.

Main Features and Advantages

- Site visit planning and scheduling: Pre-Study, Site Initiation, Interim Monitoring, Monitoring Visits, Close-Out
- Centralized calendar to view CRA workload
- Separate CRA cabinet
- Study role-based permissions
- Digital signature (optional)
- Automated notifications on delays can be set up with report generation, approval and finalization
- Any additional custom notifications can be set up
- Monitoring Visits reports, confirmation & follow-up letters can be generated on customers templates
- Monitor Visit Report generation according to the type of visit (PSV, SIV, IMV, COV)
- Assessment metrics creation and CRA performance assessment
- Source Data Verification
- Action Items tracking
- Reports and listings
- Protocol deviation tracking
- Subjects enrollment log
- Customizable questionnaire
- Full integration with TMF, EDC systems

Let the system manage timelines and regain control of your CRAs activities.
