

## Flex Databases Modules Overview

Flex Databases is a company providing e-solutions for clinical trials. Software provided by Flex Databases helps making the processes of conducting clinical trials and managing pharma, biotech and CRO seamless and controlled. It means more effective data processing, less time required for managing data, avoiding mistakes in reports generation, endless reporting capabilities and KPI tracking.

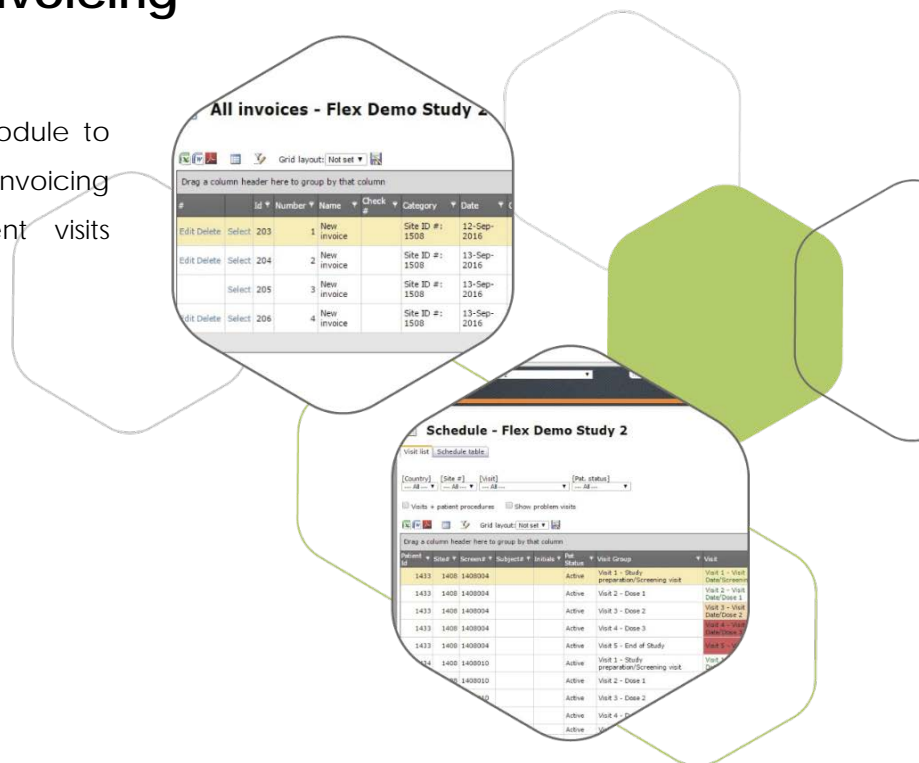

Flex Databases platform is easily customizable, any client's requirement may be configured, it distinguishes us from many other companies. The range of modules offered by Flex Databases is very wide and covers all processes within R&D company. By choosing Flex Databases our clients win a solid, reliable IT vendor with fast feedback, flexible approach and constant client support with a focus on quality.

We offer a unique platform which allows combining traditional features related to management of clinical trials (CTMS, EDC&IWRS) with the functionality for running internal pharma companies and CRO processes as well as a capability to manage financial data, invoicing and expenses. All modules developed by Flex Databases are validated and 21 CFR Part 11 compliant.

## Subject Tracking & Invoicing

Use Subject Tracking & Invoicing Module to track all patients' data and manage invoicing online. Plan and schedule patient visits efficiently.

## Functionality

### Study and Site Budget Management

- Create study and site budgets
- Invoice based on various triggers: visit, procedures, milestones, etc.
- Set up any payment rules with overhead percentage, cost and extra cost reductions
- Keep different site budget versions and invoice according to specific version
- Copy budget template to speed up trial set-up
- Export and report any data on invoicing into sites

### Enrollment and Patient Tracking

- Plan enrollment and compare with the real picture
- Plan and schedule patients visits
- Track all patient related data

### What is Going on in My Site?

- Track non-visit related activities (PTC management)
- Track unscheduled visits and procedures
- Manage open queries resolution

### Invoicing

- Get overall reports on ready to be invoiced, approved and paid activities
- Generate invoices on client-specific or ready-to-use templates
- Track invoices status
- Void or approve invoices online

**Manage site budgets and create site invoices.  
Plan enrollment and control subjects progress.**

## Benefits

### Financial Accountability & Transparency

With the ability to track and export all investigator records on payments, you'll have all the data needed to report on payments into sites and see the real picture. No more multiple systems and spreadsheets to report and reconcile!

### Payment Process Speed-Up

With automated invoice generation based on data from EDC, you can create invoices right after site work is complete.

### Sites are Happy and Engaged

Enhance your site relationships with quick on-time payments with no delays or errors. Hassle-free payments to sites is an advantage for both sponsors and CROs.

### Endless Scalability

You control sites budgets and all the budgets rules on any level. It's no longer just study or country specific. Try site specific! Try site and budget version specific invoicing with zero human mistake possibility!
